

YOU ENTRUST YOUR LIFE TO YOUR PARACHUTE.

Entrust your parachute to Spacesaver's Parachute Storage solutions.

Safety and security are primary concerns for any mission, but they're crucial when it comes to storing and preparing equipment for jumps and airdrops. Spacesaver's compact parachute racks and containers are durable and user-friendly to ensure the safety of your equipment while providing efficient storage and access.

PARACHUTE RACK

BENEFITS:

- Organized solution provides optimum storage density and efficiency
- Parachute arms adjust vertically and horizontally to store multiple sizes of parachutes on one rack
- Racks can be adjusted without tools
- Corners and edges are rounded and deburred to prevent snagging or puncturing of stored items
- Non-reactive materials prevent degradation of stored parachutes

PARACHUTE RACK + MOBILE STORAGE

BENEFITS:

- Double your storage capacity in the same footprint by eliminating fixed aisles
- Keep bulky and heavy parachute equipment organized and safely out of the way
- Flexibility - add or move carriages to other locations as needed
- Choose from mechanical assist handles, powered buttons, or touch screen controls for ease of use
- Maintain security and accountability with optional PIN-code and audit trail

Our parachute racks and mobile storage systems are designed to work together to optimize the use of your valuable storage space by compacting your storage into a smaller footprint.

PARACHUTE CONTAINER

BENEFITS:

- Containers can be stored on ActivRAC® mobilized storage system, then easily transported as needed
- Offered in two different sizes: Standard (52.50" W x 60.25" L x 53.75" H) & Large (55.50" W x 80.25" L x 58.75" H)
- Parachute Capacity for Standard: T-11: 30, T-11R: 75, MC6: 45
- Parachute Capacity for Large: T-11: 42, T-11R: 150
- Heavy-duty welded steel construction
- Perforated sides for inventory visibility and ventilation
- Fork truck access from all four sides
- Top door panels lift and pivot out of the way for full clearance to interior
- Accommodates heavy duty padlocks for security

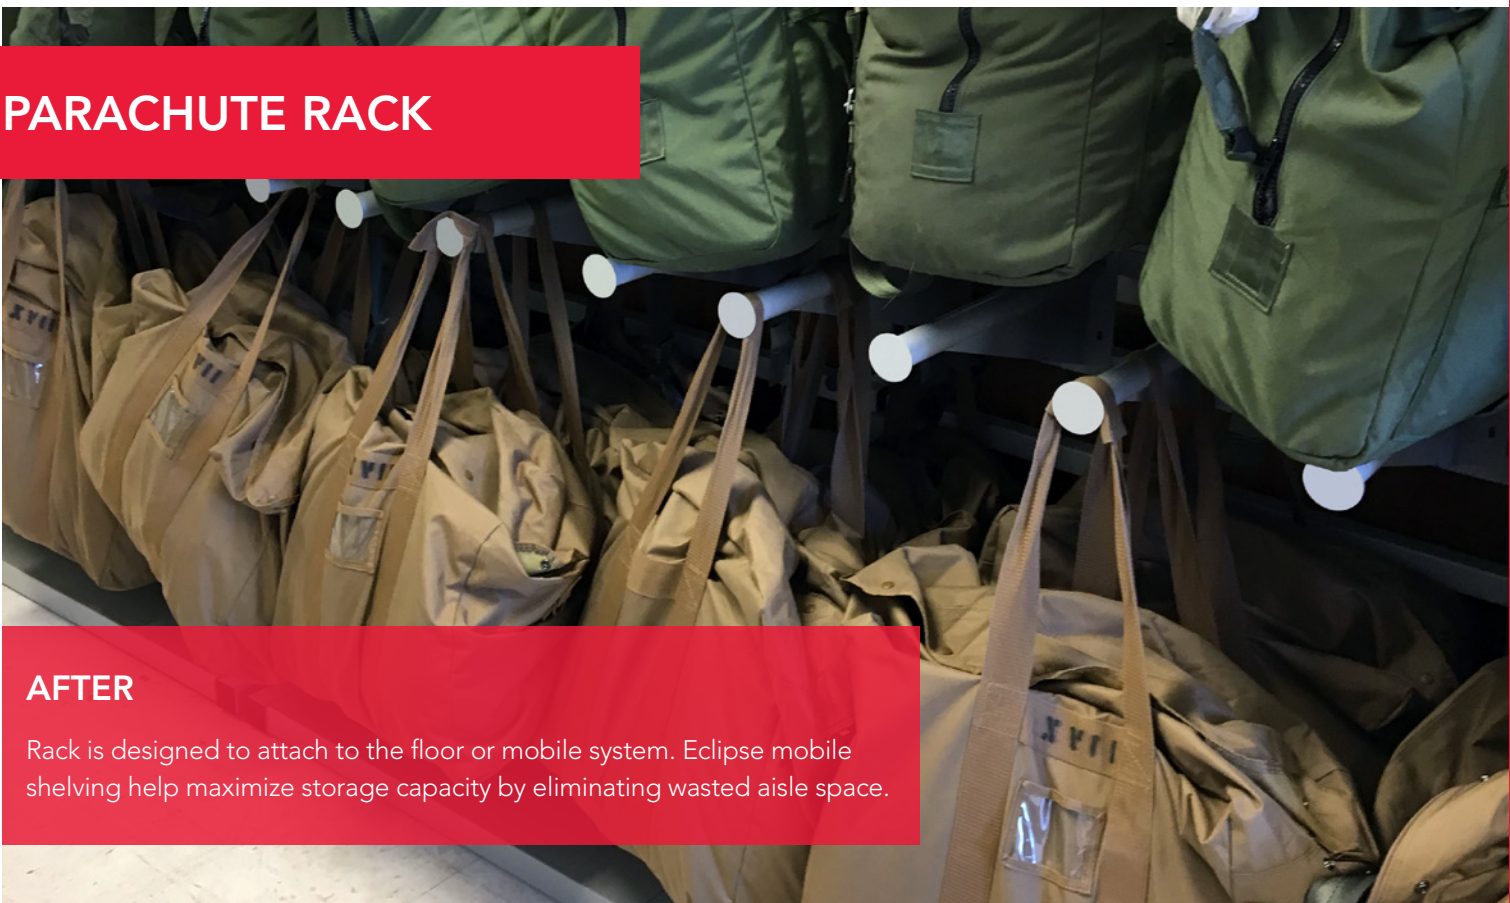

Little Rock Airforce Base,
Senior Airman Ethan Morgan

BEFORE

Metal shelving and racking could only hold a limited amount of parachutes. Due to space and weight restrictions, parachutes were being placed on the floor, which was against policy.

PARACHUTE RACK

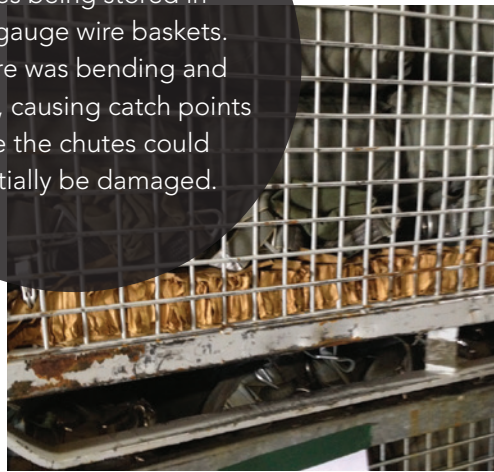

AFTER

Rack is designed to attach to the floor or mobile system. Eclipse mobile shelving help maximize storage capacity by eliminating wasted aisle space.

PARACHUTE CONTAINER

BEFORE

Chutes being stored in heavy-gauge wire baskets. The wire was bending and breaking, causing catch points where the chutes could potentially be damaged.

AFTER

Smooth interior design eliminates catch points, protecting chutes from damage.

ALWAYS READY. EVER SECURE.

With years of experience designing products alongside military personnel, Spacesaver has a wide range of storage solutions to help you achieve your mission more efficiently and safely. Our experienced in-house engineering team and extensive network of local distributors can help plan, design, install, and maintain your storage solution for years to come.

Contact our experienced and knowledgeable team today to arrange your free, no-obligation space consultation.
