4-POST & CASE-TYPE

SHELVING SYSTEMS

MAXIMUM FLEXIBILITY

Spacesaver's 4-Post and Case-Type Shelving Systems aren't just shelving. They're entire systems that are customized to boost efficiency, improve security and accountability, and save space.

DURABLE

These shelving systems are engineered for stability, strength and rugged functionality. For added structural rigidity, shelves are fabricated using cold-rolled steel and used with welded-steel uprights, enabling the systems to support significant loads.

ECONOMICAL

Don't waste money on cheap shelving that breaks, deforms, or requires special tools to modify. Invest in a quality system that can change right along with your needs.

CUSTOMIZABLE

Choose from optional doors, drawers, dividers, and other accessories to enhance security and ensure that everything has its place.

ATTRACTIVE

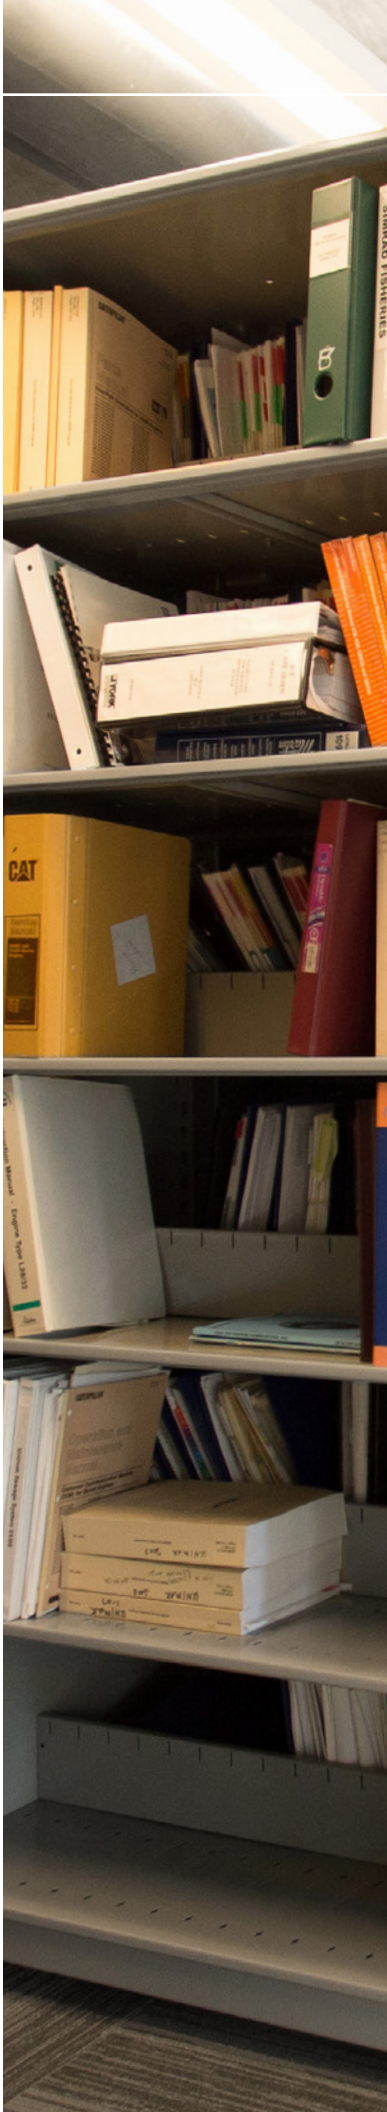
Complement any interior design with next-level colors and finishes. Our shelving systems are available in your choice of 32 powder-coat paint colors, and custom colors are available by request. Add special finish materials like wood, laminate, or glass for virtually limitless design options.

RECONFIGURABLE

Easily assembled, disassembled and reassembled, Spacesaver Shelving Systems are designed for convenient reconfiguration, relocation or expansion, adapting to your changing needs.

SAFE

Optional anti-tip devices provide extra stability and safety, even in areas prone to earthquakes.



ADD TO MOBILE

Save even more space by mounting your system on high-density mobile carriages and rails.
